SUBJECT :

ATB Evaluation of Color Control Cell Proposal from

[REDACTED]

25X1

REFERENCE :

TSSG/RED-111-70 dated 8 April 1970

1. In response to your request for proposal evaluation, the following comments are offered on the [REDACTED] Color Control Cell proposal:

25X1

- a. Page 3, paragraph 1, sections 1 and 2 of the proposal. "Color Specifications" - this work will be conducted by [REDACTED] under FY-70 Color Training Contract. 25X1
- b. Page 4, paragraph 1. "Color Perception" - we have a question as to what [REDACTED] is proposing to do here and what will be the deliverable items. [REDACTED] indicates that some of what is said here will be covered under task 1 and 2 with [REDACTED] However, [REDACTED] emphasis upon the effects of specific magnification aids looks promising and probably will not overlap with the [REDACTED] efforts. 25X1

25X1
- c. Page 4, paragraph 3. "Color Discrimination" - this must be tied in closely with tasks 1 and 2 of our [REDACTED] effort. We feel that each contract will make unique and yet complementary contributions to the color issue as long as we coordinate their efforts. 25X1
- d. Page 5, paragraph 4, section 1. This is a direct duplication of our work with [REDACTED] and should not be included as part of the [REDACTED] effort. 25X1  
25X1
- e. The proposal has been compared with out FY-70 [REDACTED] work on physical standards and [REDACTED] sees no conflict. 25X1
